## Saving On A Salary

Working for a salary does not mean that living expenses should consume all your earnings.

The man who works week after week and spends the money as it comes is throwing away every chance of independence.

Begin saving today—lay aside a few dollars now and you will have made a start.

We pay 4 per cent. interest on all savings accounts, and this added to the principal will soon lay the foundation of a competence.

## Not Many Store-Sales Are Uninfluenced by Store-Advertising!

The store-sales to-day that are uninfluenced, directly or indirectly, by store-advertising will not have amounted to ten per cent. of the total business of the day. By the direct influence of advertising is meant the sales of articles specifically advertised. By the indirect influence of advertising is meant the articles sold that are not specifically advertised, but are displayed to the customers who are drawn to the store BY THE ADVERTISED ARTICLES. In the latter case, as surely as in the first, the advertising must be credited with the sale.

Observant merchants know that this is true. They should gain courage from the knowledge to strengthen their advertising campaigns to the point of matching their store-hopes and plans.

## THE MEN'S LEAGUE ELECTS OFFICERS

Addresses by Alderman Clifford B. Wilson and Enoch P. Hincks—Duty of Churchmen to Participate in Government.

The Men's League of the First Congregational church held its annual meeting last evening in the church parlors. Alderman Clifford B. Wilson addressed the members on the duty of churchmen, saying that they should participate in government. He said: "The trouble is that in the performance of their civic duties church people are apt to be lazy."

Enoch P. Hincks also spoke briefly. Among other things he said that the Congregational church is a democratic denomination and believes in absolute independence of action and separation from the government. He also clearly defined the difference between the church and the ecclesiastical body, the one being an organization for the promotion of the spiritual affairs of the individual and the other an organization with specific duties to perform, such as hiring and paying for the minister, for coal and light and the many expenses of the society. Officers and committees were chosen as follows:

President, Richard G. Demerest; vice president, Dudley E. Bards; secretary, Dr. Arthur M. Hunter; treasurer, R. S. Hincks. Chairmen on committees: On Membership, W. B. W. Smith; Finance, W. T. Hincks; Social, W. E. Nohrnagle; Visiting, Everett H. White; Outlook, Willis Ives; Welcome, H. W. Hincks; Press, Dr. N. E. Wordin.

## Names Democrat For Judgeship

Washington, May 11.—President Taft has sent to the Senate the nomination of Henry Groves Connor, a Democrat, to be United States Judge of the Eastern District of North Carolina.

## Customs Fraud Five Dismissed

New York, May 11.—Another government customs weighing scandal has been brought to light, involving several large importers of figs and cheese in this city as well as several employees of the Treasury Department. As a result four of the government's assistant weighers and one customs inspector were removed from the service yesterday by Collector Loeb. Other dismissals are expected.

The customs employees who were removed are Assistant Weighers Joseph T. Quinn, Simon J. Mescall, Charles W. Bligh and Thomas C. Giddings, and Inspector Joseph McMahon. Inspector McMahon was an assistant weigher at the time of the alleged frauds in the weighing of cheese and figs, but had been promoted since. Collector Loeb had little to say in commenting on the removal of the five men.

## Strike Ends in Buenos Ayres

Buenos Ayres, May 11.—The strike that was inaugurated here early last week as a protest against the action of the authorities in firing upon a gathering of May Day demonstrators, has come to an end.

The men have returned to work and the situation in the city is once more completely normal.

## Explosion of Army Balloon

Omaha, Neb., May 11.—Army balloon 12, which ascended from Fort Omaha at 11:15 o'clock yesterday, landed at Jackson, Neb., at 5:45 o'clock in the evening. In making a landing the gas bag exploded a few feet above the ground and was destroyed, but neither Capt. Chandler nor Lieut. Ware, who made the flight, was seriously injured. Jackson is about 30 miles west of Sioux City.

## "LEW" WOULD INVESTIGATE NORMAL SCHOOL

Editor Bridgeport Farmer:—Sir—There are many persons in the city who believe that the Board of Education might come in for an investigation, and incidentally the Training School, have sharp inquiry—by disinterested authorities—as to its methods, curriculum and discipline. Murmurs of dissatisfaction are heard from many sources that too little attention is paid to discipline, that Supt. Deane acknowledges he cannot send Normal girls into the higher grades to substitute owing to their lack of discipline, or is to make room for outsiders? That too much time is wasted over the study of a flower or the life of a caterpillar to the neglect of more important needs. All these and many more complaints are heard, and it would seem as if the committee on schools might interest themselves in behalf of the people whose representatives they are, to show greater interest into the inner workings of this institution. Better abolish it, as one citizen remarked, if it is to be run in the interests of the few, rather than for the progress and betterment of all our students.

LEW.

## EQUIPMENT FOR LONG JOURNEY IN THE AIR

What A. Holland Forbes Will Carry In Balloon Car On Flight Which May End In Labrador.

A. Holland Forbes, of Fairfield, the noted amateur aeronaut, is getting ready for the flight he will make on June 5, as a contestant in the Indianapolis race. His new balloon, which embodies some refinements of construction not heretofore attempted, is receiving careful attention. In order that it may have the least amount of weight for the necessary strength. Inasmuch as it is expected that the general movement of the race will be toward Labrador, and as the air craft must travel 872 miles to reach the United States record and 1,202 to reach the foreign record, the equipment of the balloon is a matter of more concern than usual. This is what Mr. Forbes will carry when the race starts: First comes the food supply, which will consist of six quarts of self-heating soup, eight thermo bottles containing hot soups, representing a supply for the first 24 hours; 24 black coffee, 16 quarts water, two dozen raw eggs, broiled chickens, crackers, cheese, dried pemmican, condensed meat, tinned milk, those used abroad, and two loaves of bread. Otherwise there will be matches in sealed cases, a water anchor, life preservers, two shot guns with a hundred rounds of ammunition, maps of every State in the Union east of the Mississippi river, and maps of Canada; hatchet, fishing lines, can opener, cork screw, three blankets, spoons and ironware caps.

The self-heating soup is an ingenious contrivance by which the contents of the soup is held within a can containing lime. When water is added to the lime much heat is generated.

## CASTRO TRANSFERS HIS FORTUNE TO SPAIN

Deposed President of Venezuela Has Bought a Residence in the Capital of the Canary Islands and Will Make Future Home There.

(Special from United Press.)

Santander, Spain, May 11.—Venezuela has seen the last of Cipriano Castro, her deposed president. Castro, according to a well founded report today, has bought a residence in the capital of the Canary Islands, the capital of the Canary Islands and will make his future home there. Castro and his wife are still in Santander but are preparing to leave shortly for Tenerife. When Castro came here recently from Paris, it was with the announced determination of trying to reach Venezuela by means of a tramp steamer. He hoped that he might slip back unnoticed to the country that robbed him of his new and last successful revolt against the Gomez regime. His friends here, however, earnestly advised him that such a course would not only prove a flat failure but that it would probably result in his execution. Castro was hard to dissuade but he was eventually made to see the hopelessness of trying to reestablish himself in Venezuela. Until France turned against Castro and ordered him from its possessions the former executive preferred French territory for his exile. He is now bitterly assailing France and has transferred his fortune to Spain. It is understood that Castro will buy a large estate in Tenerife and engage in farming.

**VICEROY AND WIFE UNDER PASTEUR TREATMENT**

Pet Dog Developed Symptoms of Rabies After Biting Lord and Lady Minto.

(Special from United Press.)

Simla, May 11.—The Viceroy, Lord Minto, and his wife, Lady Minto, are under treatment of Pasteur physicians as the result of an experience with a mad dog. Their condition is no way serious, they not having been bitten badly. The action taken is merely precautionary.

The Viceroy and wife were driving when their pet dog which had jumped from the carriage got into a fight with another canine. The coachman and footman tried to save the dog but both were bitten and the pet badly mangled before the Viceroy and his wife came to the rescue and between the four they managed to kill the street dog. Then the Minto dog was picked up and both the Viceroy and wife assisted in bathing its wounds and otherwise caring for it. It developed symptoms of rabies, however, and had to be killed while Lord and Lady Minto and the two servants, both of whom were bitten, are now being treated by specialists.

## Democratic Union Against Tammany

New York, May 11.—The Democratic Union was formally launched jumps anti-Tammany career at a meeting held last night at the Gilsey House. Emphatic verbal guarantees of a Tammany defeat next November, pledged to keep up the spirits at the meeting, which was attended by about a hundred members of the new anti-Tammany Democracy.
